

CURBSIDE GARBAGE & RECYCLING GUIDELINES

Residents of Lanark Village who currently receive curbside pickup will continue to do so without the need of a bag tag.

The following limits will continue to apply to curbside WASTE PICK-UP:

- Residential – two bags per week
- Multi-residential & apartment units: two bags per residential unit per week
- Commercial & Industrial Establishments: 5 bags per week.
- Additional bags in excess of these limits can be taken to any waste site during normal operating hours for disposal without incurring any additional charge or the requirement of a bag tag.
- Pickup will continue to take place on Fridays. Garbage and blue boxes should be at the curb by 7:00 a.m.
- A bag or container used for waste disposal shall not exceed 45 pounds when full.
- The following items are considered 'uncollectible waste' and will not be collected curbside: articles more than 1.5 metres long, construction or manufacturing waste, yard waste, iron or steel, tires, electronics, appliances, household hazardous waste (including paint), or the carcass of any animal.

The following limits will continue to apply to curbside RECYCLING PICK-UP:

The following materials are uncollectable in the Lanark Village Curbside program: broken window glass & ceramic dishes, plastic film wrap (shrink wrap), motor oil or transmission oil containers, full or partially full paint cans, newspapers wrapped in plastic, chip and candy wrappers, diapers, cat litter and animal feces, blister plastic packaging.

The contractor is not required to collect any materials in a blue box which are overly contaminated with food residue or where there is a health risk to the collector (e.g. broken glass, hazardous materials, bee or wasp problems). The non-collectable material will be left in the blue box with a courtesy tag explaining why it was not picked up.
