

**Used Tire Recycling: Residents can deliver all used tires to any Township waste site free of charge and be assured they will be diverted from the landfill and recycled.**

The Used Tire Program benefits Ontario by promoting safer methods of reusing and recycling scrap tires, by creating jobs and economic growth, and by protecting the health and safety of people and the environment through scrap tire recycling.

***The Used Tire Program benefits Lanark Highlands by turning a waste management expense into a source of revenue. In 2009, the municipality paid \$8870 to have stockpiled tires hauled away from the waste sites; in 2010, we earned over \$6300 as a Used Tire Collector.***

In 2010, 5500 tires were collected and hauled away from Lanark Highlands to find new life through Ontario-based scrap tire processors and manufacturers producing end-of-life products - from playgrounds and hockey rinks, to rubber automotive parts.

Tires from On-Road *and* Off-Road vehicles with or without rims are accepted in the program. For more information and a complete list of accepted tires, go to: [www.ontariots.ca](http://www.ontariots.ca)

**Lanark Highlands is doing its part to help Ontario meet its scrap tire goals.  
KEEP IT GREEN - RECYCLING WORKS!**
