| Snye Road | 171 Snye Road | | | | | | | 12 pm - 4 pm |

LANARK HIGHLANDS TRANSFER STATIONS & LANDFILLS

Lanark Highlands operates a network of transfer stations and landfills for its residents. Landfills are the final resting place for non recyclable garbage; they require a daily cover of soil to prevent garbage from attracting wildlife or blowing around as litter. Since daily cover fills valuable space, the Township operates one landfill at a time in order to preserve capacity. Transfer Stations accept recyclables and garbage which are shipped off site for final disposal. In 2011 the Middleville Waste Site will continue to operate as the municipal landfill, accepting Construction & Demolition waste and large household items in addition to recyclables. All other Waste Sites now operate as Transfer Stations and only accept Bagged Household Waste and Recyclables (Blue Box materials, Brush, Leaves, Tires, WEEE and Scrap Metal.) If you have any questions about waste disposal, please contact the Lanark Highlands Township Office at 613-259-2398.
