# **Night paving operations scheduled for Highway 511**

Thomas Cavanagh Construction Company Limited is scheduled to begin overnight paving work on County Road 511 (Highway 511) from 3 km north of Tatlock Road northerly for 3.4 km next week.

Night paving operations will take place beginning the evening of Monday, July 21 from 6 p.m. to 6 a.m. and again overnight Tuesday, July 22.

Public Works Manager Sam Poole explained work crews will be active during overnight hours to complete asphalt paving with minimal impact to daytime traffic. During this time, one lane will remain open to traffic. A pilot vehicle will be in operation to safely guide vehicles through the construction zone.

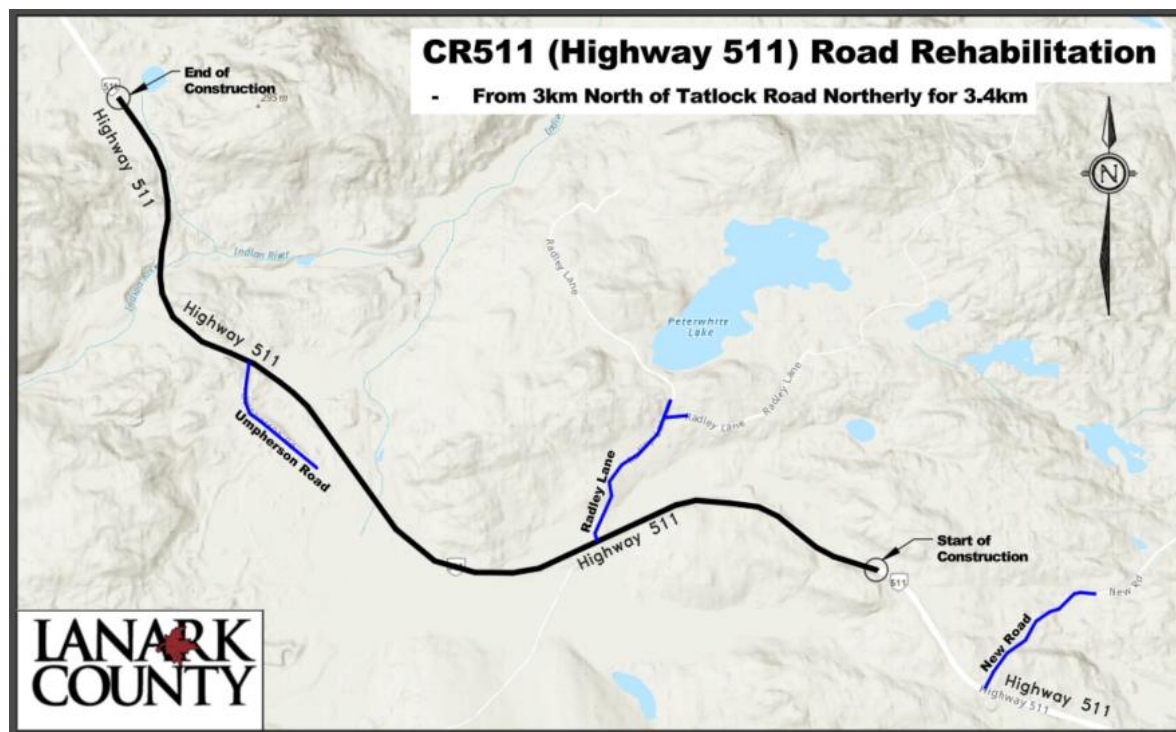

"Motorists are reminded to exercise caution, follow signage and flagging personnel, and expect minor delays," Poole said. "The county appreciates your patience and cooperation."
